Please replace the paragraph starting on page <sup>12</sup>~~11~~, line <sup>1</sup>~~24~~ with the following paragraph:

9 mL of sterile D/E neutralizer broth was added to the test tube and mixed to form a  $10^{-1}$  dilution[[],]. Serial dilutions were prepared through to a  $10^{-6}$  dilution with phosphate buffered water. The serial dilutions were plated onto Tryptic Soy Agar and incubated for 2 days at about 35°C. Bacteria counts were performed after 0 and 14 days. The results are shown in Table 1.
